ABOUT ME

Results-driven Senior Product Manager with 9+ years of experience in full PDLC execution, 0-to-1 product builds, and scaling high-concurrency platforms to 500K+ users. Skilled in bridging GTM strategy with system architecture to improve unit economics (LTV/CAC), conversion funnels, and user retention across gaming, e-commerce, and enterprise software. Adept at stakeholder management, cross-functional leadership, and data-driven roadmap prioritisation.

SKILLS

Product Management: PDLC, Agile/Scrum, Roadmap Prioritisation, GTM Strategy, Unit Economics, 0-to-1 Lifecycle, PRD Authoring, OKRs/KPIs, Sprint Planning, Cross-Functional Leadership, Stakeholder Management

Technical & AI: API Strategy, Cloud Architecture, System Design, A/B Testing, Local LLMs (Ollama, LM Studio), Prompt Engineering (Claude, Gemini, ChatGPT, and other AI tools), AI Workflow Automation, Microservices

Analytics & UX: Funnel Optimisation, User Research, Data-Driven Decision Making, Wireframing (Figma), Jira, Linear, Notion, Tableau, Mixpanel, Hotjar, SQL

NOTABLE ACHIEVEMENTS

- Scaled a Fantasy Cricket platform from zero to **500K+ downloads** and **300K+ registrations** within 3 years.
- Achieved **60% install-to-registration conversion** vs 45% industry average, a **+33% improvement**.
- Sustained **25–30% DAU/MAU ratio** (baseline: 15–20% for comparable platforms), equating to approx30K daily active users.
- Designed leaderboard architecture handling **3M concurrent users** during peak IPL traffic with zero degradation.
- Absorbed 28% GST policy change whilst maintaining **20% net commission**, saving an estimated INR2Cr annually in margin erosion.

EXPERIENCE

Restless Ventures Pvt. Ltd. (Client: Swatch UK) — Sep 2025 – Present

Lead Product Manager

- **Digital Gift Card Platform Launch:** Defined and launched an end-to-end Digital Gift Card platform for the UK market, targeting a **4% checkout conversion uplift** and capturing last-minute and corporate gifting segments.
- **Technical Integration Delivery:** Orchestrated SFCC, Global POS/Easy2Play integration with Adyen payment capture across 3 distributed systems, achieving **more than 99% redemption success rate**.
- **User Journey Optimisation:** Scoped sender/recipient journeys including multi-use redemptions (3 cards/basket cap), automated retry jobs, and communication fallbacks, reducing support escalations by an estimated **30%**.
- **Fraud Prevention:** Engineered velocity limits and capture-first authorisation model, reducing digital asset abuse incidents to **less than 1% of transactions**.

Tricket – Quick Commerce of Fantasy Cricket — Feb 2020 – Aug 2025

Senior Product Manager

- **0-to-1 PDLC Execution:** Directed full product development lifecycle of a Fantasy Cricket platform — drove viral acquisition to **500K+ downloads** and **300K+ registrations** in 3 years.
- **AI Prediction Engine:** Led development of a real-time AI prediction engine for live over-by-over forecasting, increasing in-play engagement by **18%** and reducing contest cancellation rates by **12%**.
- **Conversion Optimisation:** Redesigned onboarding by deferring KYC to withdrawal — achieved **60% install-to-registration conversion** vs 45% industry average (**+33% improvement**).
- **Retention & Engagement:** Sustained **25–30% DAU/MAU** (~30K/~110K) vs 15–20% category baseline, through real-time "second-screen" features and gamified referral loops.
- **Scalable Architecture:** Scoped high-concurrency leaderboard handling **3M users** during peak IPL traffic with zero ledger degradation.
- **Commercial Strategy:** Restructured backend financial routing to absorb the 2023 28% GST mandate, preserving **20% net commission** (est. INR2Cr/year in saved margin erosion).

Helpen IT Solutions — Jan 2019 – Jun 2021

Product Manager (Concurrent with Tricket)

- **Multi-Domain Product Delivery:** Delivered **6+ end-to-end product lifecycles** for SME clients across agritech, fintech, and e-commerce, with **95% on-time delivery**.
- **PRD & Requirements Engineering:** Authored PRDs and logic flows for **4 concurrent projects**, aligning stakeholder vision with engineering constraints.
- **Technical Delivery:** Managed SDLC execution, cutting MVP time-to-market by **35%** through modular architecture and reusable API integrations.

Helpen – One Stop Solution — Feb 2017 – Dec 2018

Product Manager

- Bootstrapped a 0-to-1 consumer utility app, launching v1.0 MVP within **3 months**. Engineered low-cost acquisition loops to secure **10K users in 6 months**, validating product-market fit at **<INR15 CAC** before scaling.

Tech Mahindra Aug 2016 – Feb 2017

Associate Software Developer

- Resolved **120+ production bugs** and refactored legacy modules, reducing regression incidents by **25%** within enterprise application development.

EDUCATION

National Institute of Science and Technology (NIST) Aug 2012 – May 2016

B.Tech in IT Engineering

ENTREPRENEURIAL EXPERIENCE

Indian Institute of Management, Calcutta Mar 2025 – Aug 2025

Incubated Product Strategist

Indian Institute of Technology, Patna Mar 2024 – Feb 2025

Incubated Innovator

KEY PROJECTS

- **Tricket** (https://tricket.in/) — Fantasy Cricket platform with real-time micro-contests, AI prediction engine, and high-concurrency architecture serving 500K+ users.
- **Swatch UK Gift Cards** (https://www.swatch.com/en-gb/gifting/gift-cards-online.html) — Digital gift card platform with SFCC integration, Adyen payments, and fraud prevention for the UK market.
