Senior Product Manager and founder-operator with 10+ years building consumer, B2B, and AI products from 0 to 1. Co-founded Tricket, scaling it to 500K+ downloads and 300K+ registrations, and currently lead NextJobMate, a multi-tenant AI SaaS. Strengths include product strategy, experimentation, growth, monetisation, high-throughput systems, and cross-functional delivery.

EXPERIENCE

Restless Ventures Pvt. Ltd. Senior Product Manager (Sep 2025 - Present)

Lead product strategy and end-to-end delivery for NextJobMate, a multi-tenant AI SaaS for job discovery, CV tailoring, and interview preparation, and its companion Android networking product.

- Own the roadmap and delivery across web, mobile, Chrome extension, MCP, and a multi-tenant backend; integrated 12 discovery sources and ATS-direct feeds covering 18,775 employers across 28 platforms.
- Replaced authenticated scraping with public, partner API, and ATS-direct sources, reducing platform-compliance, account-suspension, and operational risks.
- Designed deterministic checks, embeddings, and model routing; led an eight-phase AWS migration that reduced monthly run-rate by 58% with zero downtime.
- Diagnosed eight cross-system defects that blocked end-to-end delivery despite healthy dashboards; corrected scoring errors and strengthened validation and monitoring.

Helpen.In Enterprises Private Limited Founder & Product Lead (Feb 2017 - Aug 2025)

Built and operated multiple products under one company, including Tricket, Helpen IT Solutions, and the Helpen consumer app.

Tricket - Real-time Fantasy Cricket | *Flagship consumer product* Feb 2020 - Aug 2025

- Led a 15-person cross-functional team across engineering, design, analytics, operations, support, and growth; owned product strategy, roadmaps, experimentation, monetisation, and delivery.
- Scaled Tricket to 500K+ downloads and 300K+ registrations in three years through referral loops, content partnerships, and acquisition-channel experimentation.
- Built a real-time AI analysis engine for live over-by-over projections and personalisation; increased in-play engagement by 18% and reduced contest cancellations by 12% through controlled experiments.
- Improved install-to-registration conversion to 60% by simplifying onboarding and deferring KYC until withdrawal; sustained a 25-30% DAU/MAU stickiness ratio (~30K DAU on 110K MAU) through gamified loops and 40+ funnel experiments.
- Architected a high-throughput leaderboard and ledger system to absorb peak bursts of up to 3M leaderboard API calls during IPL traffic, with zero ledger inconsistencies.
- Redesigned financial routing after the 2023 28% GST change, preserving a 20% net commission and avoiding an estimated INR 2 crore in annual margin erosion.
- Managed an orderly wind-down in August 2025 following India's regulatory change affecting online money gaming, including user-balance refunds and cross-stakeholder coordination.

Helpen IT Solutions | *B2B product delivery* Mar 2018 - Jan 2020

- Delivered 6+ end-to-end product lifecycles for SME clients across agritech, fintech, and e-commerce, achieving 95% on-time delivery and reducing MVP time-to-market by 35% through modular architecture and reusable APIs.

Helpen - One Stop Solution | *Consumer utility app* Feb 2017 - Mar 2018

- Built and launched a consumer utility app integrating 33+ third-party services within three months; acquired 10K users in six months at under INR 15 CAC.

Tech Mahindra Associate Software Developer (Aug 2016 - Feb 2017)

- Resolved 120+ production defects and refactored legacy modules, reducing regression incidents by 25%.
